Blowing in the Wind: Forecasts of Fed Policy Rates 24 Months Ahead
(In percent)

Investors have steadily marked down their expectations for the U.S. policy path.

La Guerra Comercial Afecta los Mercados

Trade tensions weighed on equity markets in May ...

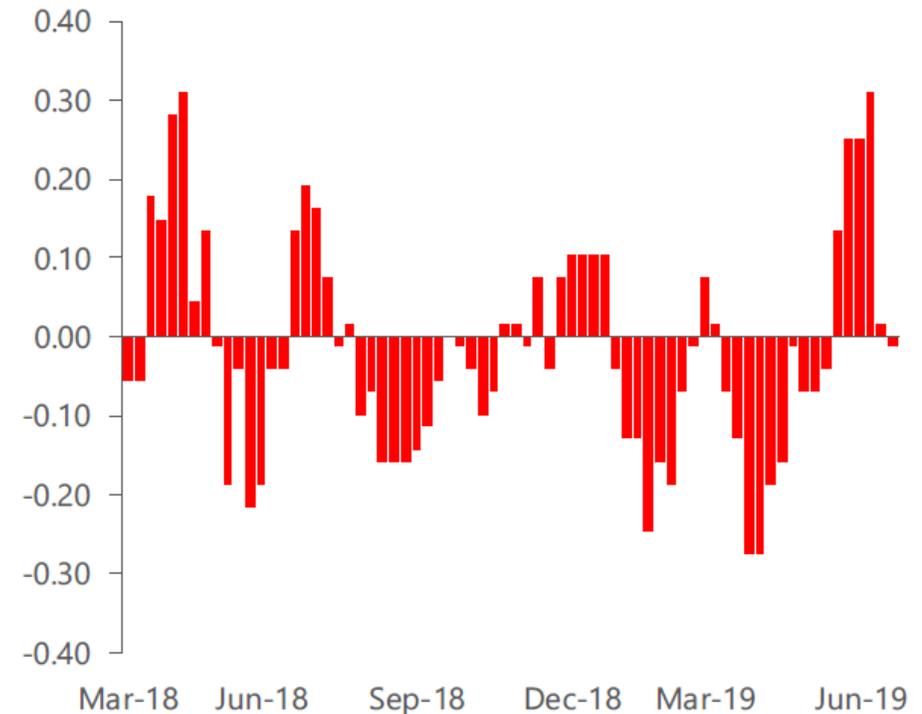

... as shown by the sensitivity of financial assets to trade-related news

Relative Equity Performance of Trade-sensitive Firms
(Relative to benchmark, index to March 2018)

Note: 1. US initiated national security investigation into autos; 2. US announced 25% tariff on \$50 bn Chinese goods; 3. US implemented 10% tariff on \$200 bn of Chinese goods; 4. US tariff on \$200 bn of Chinese goods hiked to 25%; 5. June FOMC meeting when policy rate expectations were revised lower; 6. G20 meeting.

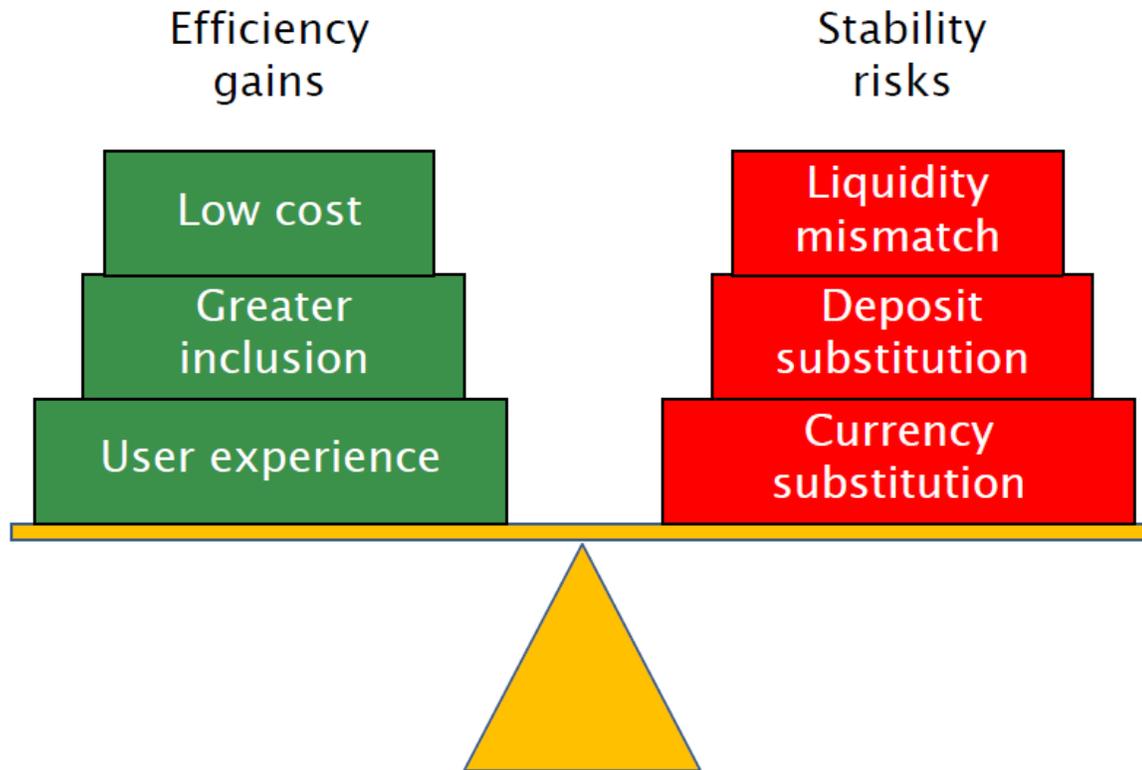

Market Sensitivity to Trade-related Headlines
(Index)

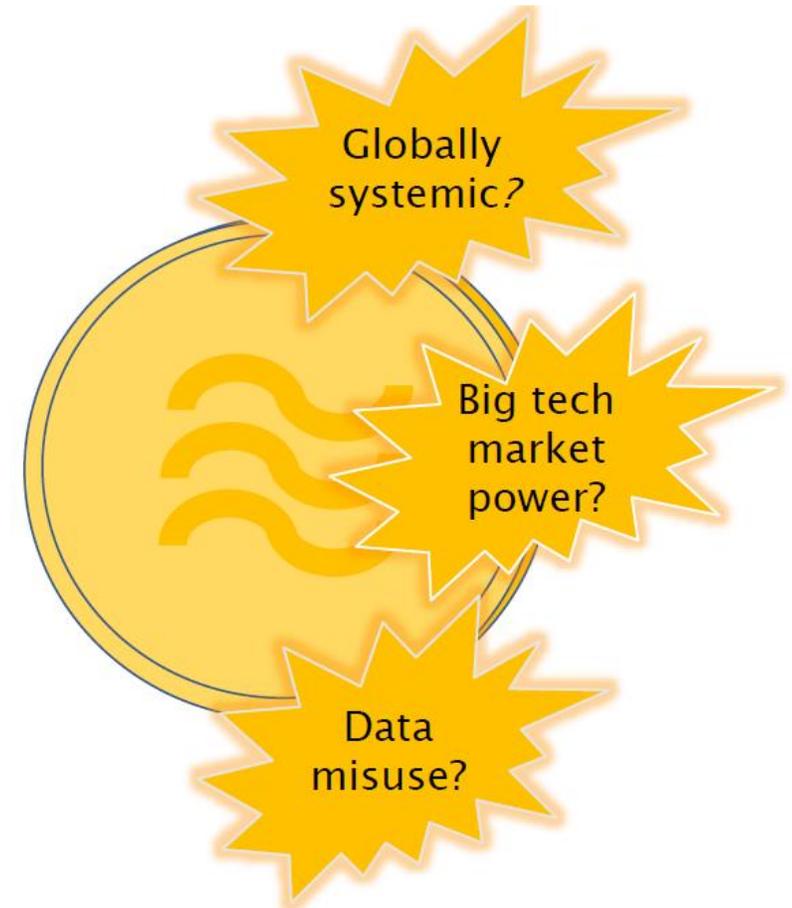

Note: The chart is based on a variance decomposition of the relative performance of trade-sensitive assets. The method controls for a news-based trade sentiment indicator and monetary policy.

Fintech es una Fuente de Incendio

Fintech policy requires a balance

The massive scale of Facebook Libra poses challenging questions

El Final del Ciclo Financiero?

Vulnerabilidades:

- Mucha deuda de empresas
- Nexo gobierno / bancos
- Descalces liquidez / plazo
- Precio de vivienda muy alto
- Vulnerabilidades en mercados emergentes

Riesgos:

- Crecimiento global lento
- Guerra comercial
- Incertidumbres políticas
- Brexit abrupto
- Expansión desordenado de Fintech

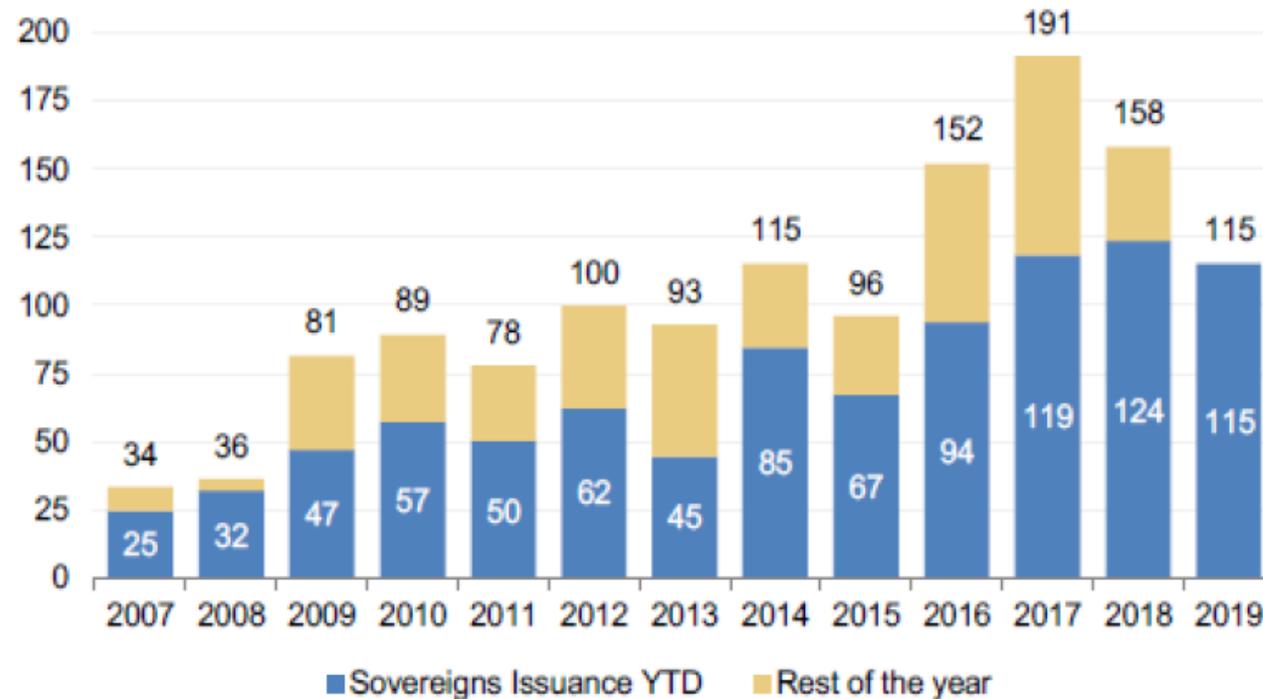

5 Years Ahead – Unknowns

- **Equilibrium Real Interest Rate – What level?**
- **Asset Price Correction – Contained or Systemic?**
- **China – Global Capital Market Player?**
- **Global Banks ROE – Stagnation?**
- **Sovereign Bank Nexus – Tipping Point?**
- **Digital Currencies/Fintech – Regulated or Disorderly?**

Anexo

EM Sovereign Issuance has been brisk

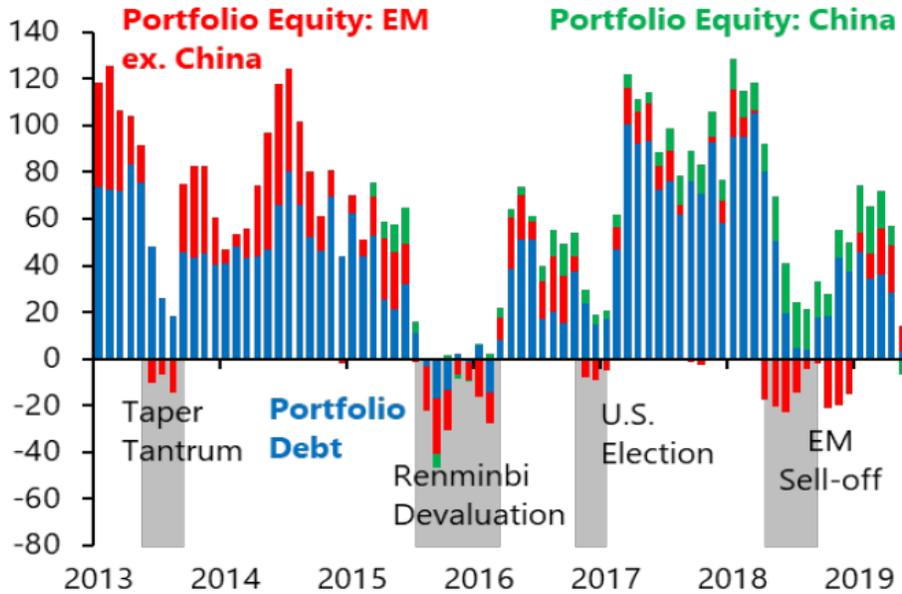

Joining the Party: EM Sovereign Bond Issuance (Year to date in US\$ bn)
